# BRAND INTRODUCTION

MOREROOM • MORE NATURE MORE POSSIBILITIES

MOREROOM STONE, with over 16,000 square meters of natural stone and sintered stone industry landmark - ART-S RED HALL, is located in the heart of the Chinese Ceramics Industry - Foshan Ceramics International Center. MOREROOM STONE is a high-end natural stone and sintered stone brand, with a mature international research, development, design, and operational system. Essentially, it serves as a provider of natural stone and sintered stone one-stop solutions, collaborating with top-tier international design and development companies. From R&D, production, fabrication process, and installation, MOREROOM STONE keeps pace with the highest standards of the Italian and Spanish industries and can provide flexible brand customization services in every process.

MOREROOM STONE, since established in 2012, has been determined to be driven by the "GRAND DESIGN SYSTEM" (Integrated design, space and graphic design, product system design system), to the global market. In R & D, we have strategically partnered with top-notch Italian design institutions such as NEWTON, Digital Design, and Nitida and forged a stable long-term cooperation with Romani Group (Italy), establishing a Chinese R&D center together. Through the cooperation, to synchronize the Italian product aesthetic system and design logic, we provide the natural stone and sintered stone with authentic Italian natural aesthetics to consumers and designers.

MOREROOM STONE cooperates with the best raw materials suppliers and the top equipment ink and glaze manufacturers such as ZSCHIMMER & SCHWARZ (Germany), AIRPOWER (Italy), and TORRECID (Spain), etc., and strive to integrate the top product design, the most advanced technology and contemporary Italian aesthetic space experience, and brings the global marketing service system to high-end consumers around the world.

# OUR STRENGTH

---

---

## Over 20 Years Industry Experience

---

Not only in the research and production of higher quality products but also providing comprehensive, professional natural stone and sintered stone one-stop solutions worldwide.

---

## Italian Equipment Intelligent production line

---

Sync with the Italian manufacturing system and procedures, we match the production norms and European standards, and strive to offer our global clients of European highest standards.

---

## Wider Range Of Imported Stone Resources

---

With over 20 years of experience in the building materials industry, including international expertise, we have extensive resources for importing stone. This enables us to provide global clients with products of superior quality.

---

## Flexible And Diverse International Services

---

Throughout the various stages of research and design, production and processing, customized projects, and spatial applications, we possess a comprehensive service system and a wealth of resources to offer to global clients and designers.

---

## Cooperation With Italian Sintered Stone Design Institutions

---

As a permanent strategic research and development center partner of the esteemed Romani Group in China, we also establish enduring strategic collaborations with top-tier Italian design institutions such as Newton and Digital Design, and dedicated to provide global clients and designers with authentic Italian natural technologies.

---

## Industry-leading R&D Team

---

Our team educate in design disciplines, possess an even greater aesthetic foundation and boast a systematic approach to design research and development. They are coupled with a product implementation system adhering to European standards, and thus ensure the superior quality and aesthetics in products.

# BRAND STRENGTH

We Produce with top  
italian production  
equipment to match  
European standards

---

## Sintered Stone Press Machines Imported From Italy

To ensure the stability of sintered stone slab body, we utilize imported Italian press machines, including SYSTEM belt press and SACMI roller press. These advanced machines resulting in higher stability of MOREROOM sintered stone slab body, also provide optimal conditions for pressing no matter thin or thick slabs, with flatter smoothness and higher density.

## AirPower Glazing Line Italian Glazing Equipment

The Italian AirPower automatic swing-arm glazing equipment delivers a finer surface effect and ensures a lighter, more uniform glaze layer. This helps to minimize the presence of bubbles and impurities, thereby enhancing the overall quality of the sintered stone.

## SYSTEM Digital Printer Imported From Italy

To enhance the visual impact and offer superior product aesthetics, We consistently rely on Italian SYSTEM digital printer, to provide higher resolution, less wiredrawing, and deliver clear textures and patterns, ensuring a higher level of quality in our slabs.

## KEDA Smart Polishing Line World-class Polishing Machine

By using world-class KEDA polishing machines, the silk surface has no polishing marks, and the glossy surface has a higher glossiness, which can bring customers a better surface craftsmanship experience.

## 300+ Ultra-long Kiln Intelligent Temperature Control

The Kiln firing process is a key process that determines of the slab both the quality stability and the Vividness of texture and colors. The intelligent temperature-controlled kiln spans over 300 meters, the extended length allows to the stable temperature control and throughout firing process, thereby enhancing the stability of the slabs and preserving the vividness of their textures and colors, providing high-quality sintered stone for global clients and designers.

# TECHNIQUE & PRODUCTS STRENGTH

Top sintered stone surface shows a sense of luxury in every single details

## More Vivid Colors

We imported European ink, and most advanced 12-color channel system ahead of the industry. This allows for vivid and pure colors, without dull colors.

## More Wear Resistance

With a Mohs hardness over 6, it exhibits exceptional hardness, superior compressive strength, and excellent resistance to scratches. High quality standards provide global clients with a superior product experience.

## More Natural Pattern

With inkjet printers imported from Italy, we are able to faithfully reproduce the natural texture of stone with high pixels and not dim. The textures are not only realistic and substantial but also delicate and natural, showcasing the purest expression of natural marble's inherent beauty.

## More Flat Surface

Advanced production equipment imported from Italy, achieves a flat surface on both the sintered stone slab body and the surface, enhancing the surface clarity of the sintered stone, and refining a high-end experience to any spaces.

## Better Processing Performance

The enhanced stability of the sintered stone body quality results in a higher level of toughness, making slabs suitable for diverse processing techniques and fulfilling the requirements of customized fabrication.

## More Surface Texture

We possess the remarkable ability to produce a wide range of surface textures which is rare in the industry, offering over 28 different finishes, and enabling clients to explore the various natural tactile sensations of surfaces provide.

• TECHNICAL FEATURES •

	ULTRA-REALISTIC	For its obviously high fidelity it perfectly restores the texture of natural stone and reflects its soul.
	TOUGHNESS	Our porcelain slab has better machinability and toughness.
	6+ MOHS HARDNESS	With mohs hardness not less than six degree bringing consumers the ideal quality of tile slab.
	10+ COLOR CHANNELS	In terms of ink and color there would be better chroma.
	RICH COLORS & TEXTURE	Design and texture is rich, stunning colors beyond imagination.
	FOOD GRADE SURFACE	Hygienic surface waterproof, resistant to high temperatures, easy to clean.
	WATERPROOF	Waterproof and resistant to liquids, with an absorption level of almost zero.
	RESISTANT TO SCRATCHES*	Its hard surface makes it resistant to scratches and abrasion.
	RESISTANT TO HIGH TEMPERATURES	it does not burn in contact with fire nor does it emit smoke or toxic substances when subjected to high temperatures.
	EASY TO CLEAN**	Resistant to any kind of chemical cleaning agent such as bleach or ammonia.
	HYGIENIC	It does not give off any harmful substances and is totally suitable for contact with food. NSF Certified.
	RESISTANT TO UV RAYS	Being 100% natural, its colors do not fade away when being exposed to sun light or other extreme weather conditions.
	100% NATURAL	It does not give off any substances that are harmful to the environment.
	RECYCLABLE	Up to 52% of recycled content in every slab. 100% recyclable.
	LIGHTWEIGHT	Only 7 kg/m <sup>2</sup> (1.4 lb/sgft) in the 3 mm slab, 15 kg/m <sup>2</sup> (3.07 lb/sgft) in the 6 mm slab, 30 kg/m <sup>2</sup> (6.15 lb/soft) in the 12 mm slab and 48 kg/m <sup>2</sup> (9.83 lb/ soft) in the 20 mm slab.
	RESISTANT TO BENDING	It has a high shear rate, making it resistant to heavy loads and pressure.
