

# WHAT SETS LUBAN CABIN APART FROM OTHERS?

## 1. Complete Production Line On-Site

Our in-house workshops for all production stages ensure unmatched quality control and customization flexibility.

## 2. 100% Brand New Raw Materials

We use only new materials for our aluminum panels, ensuring superior durability and smoother finishes.

## 3. 10 Sets of Bending Machines

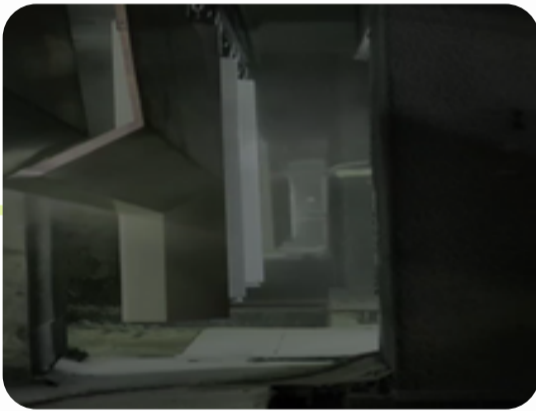

In-house aluminum processing enables superior customization and design, unlike competitors who face quality and infringement risks through outsourcing.

## 4. Pickling Process

Our pickling workshop's unique, rigorous checks ensure cleaner aluminum panels with stronger color adherence and durability.

## 5. Fluorocarbon Painting

Our fluorocarbon paint, applied at 100°C, guarantees 30 years of vibrant, fade-resistant color with superior adhesion, hardness, and extreme temperature resistance.

## 6. Robust Framework

Our capsules have high-density, seismic-resistant tops and double-layered, galvanized steel bottoms for durability.

## 7. In-House Design Team

Our top design team ensures seamless design-manufacturing integration for quick, customized customer responses.

## 8. Interior Decoration

Exclusively partnering with leading brands, our in-house team crafts efficient, custom designs with aesthetic appeal.

## 9. Insulation

Double-layer insulation used in capsules, except glass, for consistent thermal and acoustic insulation.

## 10. Custom-Produced Doors

Capsule doors made in-house ensure material consistency, optimal insulation, and are industry-best packaged.

# WHAT SETS LUBAN CABIN APART FROM OTHERS?

## 11. High Cost-Performance Ratio

Luban Building positions itself as a brand with mid-range pricing and high-end quality, considered to be the brand with the highest cost-performance ratio globally.

## 12. International Recognition

As China's leading brand in the field of space capsules, Luban Building has received high acclaim in countries such as Germany, South Korea, Brazil, Kazakhstan, and Russia.

## 13. Unique Product Development and Patent Protection

Luban Building leads in product development by five years compared to other companies and holds design and brand patents, ensuring product differentiation and competitive edge.

## 14. Flexible Brand Collaboration Strategy

Provides partners with the option to operate their own brand, positioning it at the high-end to yield higher profit margins.

## 15. Quality Assurance

Offers a 30-year warranty for aluminum panels and internal structures, employing acid-washing and fluorocarbon painting processes to guarantee no fading or paint peeling.

## 16. Strong Production Capacity

The factory spans 20,000 square meters with a monthly capacity of 200 units, capable of meeting large-scale supply demands

## 17. Brand Endorsement and Resource Sharing

Offers dual-brand operation, sharing Luban Building's manufacturing strength, R&D design, certification qualifications, and promotional materials.

## 18. Customization Services and New Product Development

Customized Services

Provides professional design and R&D team support for customized requirements and continuously develops new products to adapt to market changes.

## 19. Rich Project Cases and Positive Customer Feedback

Has numerous successful domestic and international projects, with many positive customer reviews and feedback.

## 20. Industry Recognition and Government Support

As a high-quality enterprise participating in the Canton Fair, Luban Building receives government recognition and support, demonstrating its strength and qualifications.
